Full Stack Developer with 3 years of professional experience building and maintaining Django-based web applications, including database design, Docker deployment, and AWS-hosted infrastructure. Currently completing a Bachelor's Degree in Computer Science, with additional hands-on experience in React and FastAPI through independent projects.

Education

Universidad Nacional de Córdoba
Bachelor's Degree in Computer Science

Córdoba, Argentina
2021 – Expected 2027

Instituto Técnico Salesiano Villada
Programming Technician

Córdoba, Argentina
2014 – 2020

Experience

Buenaventura Agronegocios

Mendiola, Argentina

Full Stack Developer

Jun 2021 – May 2024

- Developed and maintained new features for a Django-based agribusiness web application, designing and integrating new database models to support evolving business requirements.
- Built frontend interfaces using Materialize CSS, jQuery, and CSS, translating design requirements into functional pages.
- Configured and maintained Docker containers for application deployment, including adding services and adjusting environment configurations.
- Managed and monitored application instances hosted on AWS.
- Collaborated within a Scrum team, using Git workflow and Jira/task management to maintain organized, iterative development cycles.

Projects

El Switcher [↗](#) | *FastAPI, React, WebSockets, SQLite*

- Built a full-stack real-time multiplayer game with a FastAPI backend exposing a REST API and WebSocket connections for live game state updates.
- Developed the React frontend, consuming the WebSocket API to reflect game state changes in real time.

Graph Coloring Tool [↗](#) | *C*

- Implemented a C program that parses graphs in DIMACS format and applies a greedy vertex coloring algorithm.
- Designed the parser to handle standard DIMACS graph inputs for use in academic algorithm testing.

Skills

Languages: Python, JavaScript, Java, C, C++, SQL, HTML/CSS

Backend: Django, FastAPI, Flask, REST APIs, SQLAlchemy, JWT/Cookie Authentication

Frontend: React, JavaScript, Tailwind CSS, Materialize CSS, jQuery, Vite

Databases: PostgreSQL, SQLite

Tools & DevOps: Docker, Docker Compose, AWS, Git, Scrum/Jira

Testing: Jest, React Testing Library, Vitest

Certifications

React Developer Certificate — Udemy, Feb 2025
